

Look Who's Talking video puppetry course

Following the first ComputerXplorers course at Queen Eleanor's School earlier in the term we are pleased to say that we are going to run a new course in September. As ever the course will offer the children our unique brand of engaging and educational activities, introducing them to new ways to use the computer. Our aim is to encourage 'e-confidence' in children in an age when computers and technology are essential life skills.

In our next course children will use a piece of software called Crazy talk to turn digital photos into puppets that they can add voices and special effects to. The course will last for six weeks and at the end we will publish the finished films online. The course will be open to **years 5 and 6**

ComputerXplorers offers

- ➔ Lessons that build skills while fostering creativity and confidence.
- ➔ The chance for your child to discover technology through exploration.
- ➔ Weekly take-home materials that inform parents and involve them by providing activities and suggestions that link the learning to you at home.
- ➔ Knowledgeable teachers.
- ➔ Small hands-on classes.

We understand how children learn

Our educational technology experts design instructional classes that challenge children yet set realistic expectations for performance. By understanding what children should be able to accomplish, we can deliver sessions that give children the best possible technology experience *and* enormous fun.
