

Queen Eleanor's C of E Junior School - Curriculum Intent for Children with Special Educational Needs

Curriculum Intent

1. School leaders ensure and teaching staff ensure there is a curriculum that is ambitious and designed to give all learners, particularly the most disadvantaged and those with special educational needs and/or disabilities (SEND) or high needs, the knowledge and life skills they need to succeed in life.
2. The school curriculum is coherently planned and sequenced towards cumulatively sufficient knowledge and skills for future learning and life.
3. The school has the same academic, social and emotional ambitions for all learners, regardless of special educational needs.
4. All learners, including those with additional needs have access to the full curriculum and barriers to this are swiftly identified and addressed.

How is this implemented at Queen Eleanor's C of E Junior School

- Senior leaders, Phase Leader and SENCO provide effective support for those teaching children with SEND.
- Teachers and Leaders check learners' understanding systematically, identify misconceptions accurately and provide clear, direct feedback. In doing so, they respond and adapt their teaching as necessary. This is done via assessment, SEND Support Arrangement Targets, Intervention analysis and Pupil Progress meetings.
- Teaching is designed to help learners to remember in the long term the content they have been taught and to integrate new knowledge into larger concepts, which can be more challenging for children with SEND.
- Teachers and leaders use assessment well to identify support needed, to help learners embed and use knowledge fluently or to check understanding and inform future teaching and support.
- Leaders understand the limitations of assessment for some children with SEND and how other forms of assessment may be appropriate to ensure progress is made. For example short term targets that identify a key area of understanding.
- The resources and materials that teachers select and use with children with SEND reflect the school's ambitious intentions for children's ability to learn and access the curriculum.
- Interventions are designed with the **assess, plan, do, review framework** (see image below) to ensure teaching staff **assess** the gap in learning, carefully **plan** the intervention to address the gap in learning deliver (**do**) the intervention and then carefully **review** the progress made.
- Adult support for children with SEND is carefully planned to ensure support is given to address barriers to learning or gaps in learning, whilst ensure all children, despite their SEND needs, can be independent learners.
- The curriculum for pupils with SEND needs is broad and balanced and pupils are able to access all of the curriculum. No part of the curriculum is not available to children with SEND needs.
- Learners are ready for the next stage of education, employment or training. Where relevant, they gain qualifications that allow them to go on to destinations that meet their interests and aspirations.

Please see below adaptations to the curriculum offered to children identified as having Special Education Needs.

WAVE 1 QUALITY FIRST TEACHING AT QUEEN ELEANOR'S JUNIOR SCHOOL, GUILDFORD

Available to all children regardless of need
